

Case Study

More than just a tick

A Client Review of Southpac Certifications: By Australian Marine & Civil

Who is Australian Marine and Civil?

Australian Marine and Civil (AMC) is a civil construction company for marine and civil industries throughout Australia. AMC has a superior and trusted reputation within the industry for outstanding structural and material quality. They own and maintain a fleet of specialised plant and equipment, even developing attachments and innovations to improve safety, time, and quality.

What Standards/Regulations of Compliance

AMC works within highly regulated industries offering works such as confined spaces, structural retaining and anchoring, railway, marine and civil and drainage. As such AMC have highly regulated procedures and have implemented an integrated management system to the following standards: ISO9001:2015 (Quality), ISO14001:2015 (Environmental) and AS/NZS 4801:2001 (OHS).

How were Southpac Certifications 'more than just a tick'?

Southpac Certifications were chosen after an extensive review of certification bodies based on criteria such as response time for correspondence, customer service, auditor experience, experience within the civil construction industry, level of detail, cost, and timeliness.

Want your organisation's certification to be more than just a tick?

Southpac Certifications is committed to helping organisations get the most benefit from their certification; from the initial stage one audit, throughout the year and for each ongoing surveillance audit, we're with you.

"Right from the onset of dealing with Southpac Certifications, in the first instance, Jeremy and then Luis, who arranged the auditing schedule through to Martin the auditor - Southpac dealt with us more like a partner to our business.

"Having achieved certification we have been able to work on the continuous improvement of our business; submit more tenders as major clients we work with expect certification standards to be a part of good business; and give clients who may be looking at using our service confidence in our ability to meet safety, quality and environmental business practices.

"Southpac Certifications kept us informed along the way and there were no surprises. Martin, the auditor, was thorough and gained a quick understanding of the operations of the business and gained the confidence of the staff during the three-day audit. Having been involved with certification bodies for over 20 years Southpac are the easiest to deal with."
